# Scrambled Circles

## A game for 2 players

Materials

Fraction Circles

Blackline
Master #4

What to Do

1. Scramble the .

2. On your turn, spin the spinner. Pick up that fraction piece and place it on a circle on the Circles worksheet If you spin a fraction that can't be used, you lose your turn.
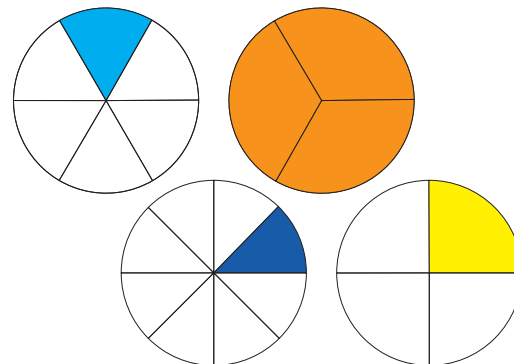

Show Your Work

3. Record your spin.

4. Now your partner spins and adds a piece.

5. If a player adds a piece that makes a whole circle, he or she earns a point.

6. Play until all the circles are whole. The player with more points wins the game.

7. Color circles to show the fractional parts.

Three-thirds makes 1 whole circle! I earn a point!

My Spins

| $\frac{1}{3}$	$\frac{1}{6}$	$\frac{1}{4}$
$\frac{1}{8}$	$\frac{1}{3}$	$\frac{1}{3}$

Three-thirds is 1 whole circle. List other fraction names for 1 whole circle. What is the same about these fractions?
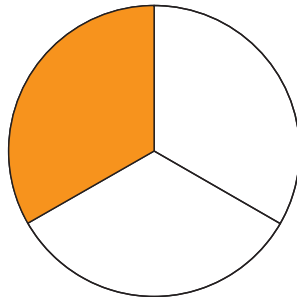

# Skill Practice

Write a fraction for each shaded part.
